

# Club Feedback Minutes

## Semester 2

# 1 Financial Changes

UB Sport are in the final steps of their proposition to change the current financial structure of clubs. This will potentially change rollover, and the way clubs are funded. The decision from the university board is expected in the next few weeks.

If unsuccessful, UB Sport are thinking about the possibility of becoming a separate entity from the university, which would allow them to have more control over their finances and operations. They may still do this as payment back to students is currently a very long process.

# 2 Club Feedback Form

Only 18 responses from karate.

# 3 Dojo Mats

UB Sport are having the final stages of determining what to do with the dojo mats, including meetings with health and safety and other relevant departments. Amy spoke on potentially having other areas that could be matted? Such as badminton and squash courts. Apparently Nottingham have theirs in the squash courts. I pressed to have both in the dojo as this seems like the easiest option for literally everyone.

We will have a decision soon but there is going to be a change at the very least. We will be kept updated on the situation... or I'm gonna harrass club dev after easter.

# 4 Kukri

Kukri are messing up orders so we kit officers should be checking orders and chasing up kukri if the order is later than the one week grace period.

Skorts are being sent back as they are undignified.

# 5 Club Conference

- Fiona to attend vice presidents meetings
- Social Secs to attend all relevant meetings such as the consent workshop.
- All other members of the committee are to attend meetings that are relevant to their role.
- At least one member from each committee need to attend the consent workshop. This is not negotiable.
